David M. Sonner, CFM, Factory Representative
Smart Vent Inc.
450 Andbro Drive
Suite 28
Pitman, NJ 08071

Dear Dave,

Thank you very much for resolving the water penetration problem during storms at 213 N. Princeton Avenue, Ventnor, NJ. As per your inspection, the vent should have been a solid vent rather than the type that was put in by the masonry contractor. The customer is now pleased. The problem is cured and your quick response to the matter was extremely helpful.

Also, I would like to congratulate you on your product knowledge, and your assistance that you have given us on current and existing projects which all use Smart Vents.

If you could, please forward this to the appropriate Regional Manager. Should management have any questions, please have them feel free to call me at Cell #609-587-9438.

Sincerely yours,

Jay Cooke, Construction Director
