Dear Sir,

This is a letter of recognition that I felt compelled to write after being introduced to your Smartvent products. My primary business is new home landscaping and maintenance, a problem that has been a thorn in my side for a number of years now was no matter how good my work was the background of a foundation with vent holes all over the place looked terrible. I heard about your vents and how they cover 200 ft. of crawlspace, making it possible to have a lot less holes in foundations. I did a lot of checking up and found your vents really were all you claimed.

I am very pleased with your product, the instructions your company provided made retrofitting easy, (and profitable). To date I have included Smartvents in 5 different projects and will continue to use them in the future. Smartvents give my jobs a aesthetic edge that makes a big difference to the high end homeowner.

Bottom line, I think your Smartvents are a quality made product, they look good, and the protection they provide for flood coverage is superior to anything I could find.

Congratulations on building a better mousetrap.

Yours Truly,

A handwritten signature in black ink, appearing to read "Matt Klosterman". The signature is written in a cursive style with a long horizontal line extending to the right.
