FOR IMMEDIATE RELEASE

SMART VENT FOUNDATION FLOOD VENT RECEIVES PRODUCT APPROVAL FROM THE FLORIDA BUILDING CODE COMMISSION

Smart Vent, the leading manufacturer of foundation flood vents, has received product approval from the Florida Building Code Commission.

To gain product approval, Smart Vent was subjected to stringent comparative testing and rational analysis including quality assurance, validation and evaluation by an independent testing firm. The Smart Vent foundation flood vent met the flood resistance design and construction requirement standard of the American Society of Civil Engineering (ASCE-24) and structural test code compliance as set by the American Society of Testing and Materials (ASTM E330).

“With the recent approval by the Florida Building Code Commission and having long been approved for use by FEMA and evaluated by the ICC, the Smart Vent foundation flood vent meets or exceeds all code requirements nationwide.” States Michael Graham, Vice President of Smart Vent. “Homeowners in the state of Florida and across the country can rest assured that by installing our vents they are getting the best protection money can buy, while architects and builders will significantly reduce their liability using our code compliant vents.”

Smart Vent Certified Automatic Foundation Flood Vents also save homeowners up to 400% on their annual flood insurance premium. Smart Vent preserves aesthetic beauty of a home by requiring 2/3 less vents, protecting 200 sq.ft. of home vs. 60 sq. ft per each non-compliant vent used. The all stainless steel construction meets or exceeds flood and corrosion resistance code requirements. Smart Vent features a patented automatic float release vent and bi-directional flood door. Temperature controlled louvers automatically open in warm weather and close in cold weather.

For more information on the SMART VENT foundation flood vent, winner of the prestigious MVP Award and Top 100 Products honors from Building Products magazine, and Product of the Year from do! Magazine please contact Smart Vent.

Florida Product Approval # FL5822
